PROFESSIONAL SUMMARY

Motivated IT undergraduate with a CGPA of 9.6/10 and a strong interest in AI/ML. Skilled in Python, Pandas, NumPy, Scikit-learn, and data analysis, with hands-on experience building machine learning projects through academics and internships. Strong problem-solving and analytical skills, eager to learn and contribute to real-world AI/ML solutions.

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology 2023 – 2027
C.K. Pithawala College of Engineering & Technology, Surat (GTU) *CGPA: 9.63/10 (up to 6th Sem)*

Higher Secondary (Class XII) – *GSEB* 2023 | **77.16%**

Secondary School (Class X) – *GSEB* 2021 | **93.00%**

TECHNICAL SKILLS

Languages: Python, C
AI/ML: Machine Learning, Data Preprocessing, EDA, Feature Engineering, Model Evaluation, Generative AI
Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Database: MySQL
Tools: Jupyter Notebook, Google Colab, Git, GitHub, Visual Studio Code

PROJECTS

SwiftCargo – Shipment Delay Prediction System *Python, Scikit-learn, Pandas, NumPy, Streamlit*

- Developed an end-to-end shipment delay prediction system using integrated logistics, traffic, weather, and warehouse datasets.
- Designed data preprocessing and feature engineering pipelines, evaluated multiple ML models, and optimized the final model using GridSearchCV and RFECV.
- Built a Streamlit web application for real-time shipment prediction with automated data processing and interactive user input.

ResumeAI – Smart Career Studio *Python, Flask, SQLite, HTML, CSS, JavaScript, Gemini API, OpenAI*

- Developed a full-stack AI-powered career platform featuring an ATS resume builder, cover letter generator, and adaptive AI mock interview.
- Integrated Gemini and OpenAI APIs for resume enhancement, ATS analysis, and interview assistance with automatic fallback support.
- Implemented secure user authentication, profile management, and REST-based backend services using Flask and SQLite.

Virtual Chikitsa – Telemedicine Platform *PHP, MySQL, HTML, CSS, JavaScript*

- Developed a web-based telemedicine platform for online appointment booking, video consultations, and digital prescriptions.
- Implemented secure patient, doctor, and administrator modules with role-based authentication.
- Integrated payment gateway and video conferencing services to improve healthcare accessibility.

EXPERIENCE

Data Science Intern July 2026
Technetics IT Services *On-Site*

- Developed a Machine Learning model for Shipment Delay Prediction using logistics data.
- Performed data cleaning, EDA, and feature engineering to prepare data for ML; used Python and SQL for analysis and model development.

Gen AI & Cloud Computing Intern June 2026 – July 2026
IBM SkillsBuild – BharatCares *6-Week Program*

- Completed a 6-week Gen AI & Cloud Computing internship in association with AICTE and IBM SkillsBuild, gaining practical exposure to Generative AI and Cloud Computing.

CERTIFICATIONS

- **Agentic AI Certified Foundations Associate** *Certification*
- **NPTEL** – Python for Data Science Top 5% | Score: 83%
- **NPTEL** – Data Mining Elite + Silver | Score: 82%
- **NPTEL** – Wireless Communication Elite + Silver | Score: 76%
- **Infosys** – Java Certificate Course *Course Certification*
- **Code Unnati Foundation Advanced** – Course Certification *Course Certification*
